

Company Fact Sheet

Background	Optikos Corporation is a privately held company headquartered in Wakefield, MA USA.
Description	Optikos provides optical engineering design and manufacturing services for optically-based product development, IQ Lab™ Services, and lens and camera testing systems to clients worldwide.
Employees	With over 80 employees and growing, most of our staff have advanced degrees in engineering, optics, and/or physics.
Incorporation	Stephen D. Fantone, Ph.D., President and CEO, started Optikos in 1982 in Cambridge, Mass. The Company moved to Wakefield, Massachusetts in 2007.
Worldwide	Locations include Wakefield, Mass. headquarters, offices on the East and West US Coasts, and international sales representatives throughout Asia Pacific, Europe, and the Middle East.
Applications	Automotive, aerospace and defense, consumer products, life sciences, optical manufacturing, and virtual and augmented reality.

Unique Offering

The Optical Engineering Experts®—Optikos develops and manufactures standard and custom metrology products for measuring lenses, camera systems and ophthalmic components; and offers flexible in-house IQ Lab™ testing and qualification services. Our engineering teams provide expert design and volume manufacturing for optically-based product development in any industry or application and offer customers the insight and expertise they need to help bring product concepts from idea to manufacture.

Standard and Custom Products

OpTest® Systems include modular hardware options and OpTest® software for testing a wide range of lenses.

LensCheck™ Systems and accessories with OpTest® software provide flexible testing for lenses up to 50mm.

Meridian® Systems offer production or lab testing of small, wide-field cameras and include our advanced Meridian® FLEX Platform (Patent Pending), Focusing Target Projectors, and Starfield Assemblies.

LMI and SMI instruments offer speed and accuracy for measurement in ophthalmic applications.

ColliMeter™ Systems offer precise measurement for the set up and qualification of collimators

Quality

Intertek

Intertek

The Optikos Quality Management System meets the requirements of ISO 9001:2015 and ISO 13485:2016.
